Plans Made For Chautauqua

A meeting of the guarantors of the Radcliffe Chautauqua was held at the Library Monday, at which the various committees were present and considerable progress made toward completing plans. Mr. Partridge, advance representative of the Radcliffe bureau, was present and assisted in the arrangements.

The committee on site, E. R. Kennedy and Dr. W. I. Merrill, submitted their report, and it was decided to use the Schuyler lot next to the Congregational church.

Other committees appointed were: Tent and Seating—E. C. Merrill and Harold Morton.

Annual Dinner Of Improvement Club

Johnson avenue's annual celebration of Spring clean-up, was held Monday, at the home of Mr. and Mrs. A. F. Hills, when thirty of the residents of the avenue gathered about the picnic table.

A most sumptuous dinner, including all the good things from chicken-pie to cake, was thoroughly appreciated by the participants. After the table had been lightened of its load, the president, Mrs. May Beardsley, announced that Mr. Hills had agreed to act as caretaker of the Arden station park thru the summer.

Earlier in the season considerable work was done at the corner, and the remainder will be completed this week. The yards bordering the avenue had practically all been cleaned of weeds, but some members of the club were hard at work Monday.

The residents of that road are just proud of their beautiful avenue, and take pride in making it attractive for themselves and passers-by.

One family who formerly lived on that road for several years, were cleaning up the street in front of their new home, when some of their neighbors objected on the grounds that it made it too hard for them to live up to. But the former Johnson avenueites informed them that they came from a "clean up" street, and they couldn't break the habit. Thus has the reputation of the avenue spread to other fields.

Congregational Association

The Santa Clara county Congregational churches will hold their district meeting in Campbell, May 12 and 13. An interesting program has been arranged, in which former pastors, Rev. W. E. Eckles and G. E. Atkinson, will take part. One of the principal speakers will be Rev. Raymond C. Brooks, D. D., who is well known in church circles. His address will be given in the afternoon of the second day.

The ladies of the local church will serve supper Wednesday evening and lunch Thursday noon in the church parlors.

Dr. Merrill to Have New Offices

Dr. W. I. Merrill has leased a suite of rooms in the B. O. Curry Block, where he will have his offices, and where he will be located about May 10.

The building which Dr. Merrill has occupied since coming to Campbell will be moved to the lot on North Central avenue belonging to his father, Frank Merrill, and will be remodelled into a dwelling.

Johnson Carries Campbell

By a vote of 84 to 42, Johnson carried precinct 2, but Hoover offset that lead by a 78 to 45 vote in precinct 3.

Precinct 1 gave Johnson 46 to 37. As Campbell goes, so goes the state, only more so. The state is better than 150,000 strong for their favorite son.

The Overall Craze

That craze of overalls for men and gingham dresses for women, is not likely to strike Campbell. Most of our folks, as a matter of fact, have either denim or gingham, according to their several needs, already. A more reasonable idea than any form of fad, moreover, is the saving of what we have—the old, common clothes. If they are faded, dye them. Dye them in the new, easy way, with Twink. Look over the old things, make up your mind what colors you need, and spend a trifling sum—ten cents a package—for Twink.

Cheese

You may not at first see the connection between overalls and gingham dresses, and cheese. But denim and gingham suggest work, and work calls for good, solid food—that is cheese. There is more genuine muscle-building material in cheese, than in anything else you can buy. It is scarcely more expensive than meat, and is a much stronger food. It is down ten cents a pound, too, that is the best of it; but it will go up again. So, how big a piece of cheese will you have today, while you can still save that ten cents.

Coffee

Blaine's Steel Cut Coffee is a good thing to start the day's work with—in your overalls or your gingham dress, or whatever. Compare Blaine's Coffee with a can of coffee. Note the inexpensive paper package; and then, on the other hand, observe that finely lithographed, costly tin can. When you buy Blaine's Coffee in its paper wrapper, you save the price of that fine tin can. Keep on saving—or, if you haven't started, begin saving—that ten cents a pound; for Blaine's Steel Cut Coffee is only fifty cents. Please take a look in your pantry. Do you need coffee to day?

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

NOW HE'S FOR SCOUT CAMPING

"Right here and now I take back anything I have said against winter camps," says William Heyliger, author of books known to all boys.

"For I have spent a day at the winter-camp maintained by the Boy Scouts of America at the Bear Mountain reservation, nine miles from Tuxedo. I went there when the mercury was hovering just above the zero mark.

"I found sixty Manhattan and Bronx scouts quartered in a log cabin with a roaring fire in an open fireplace in the center of the room. I found one gang of boys chopping wood and bringing it in for the fire. I found another gang preparing the next meal. I found another gang building an outdoor cooking oven.

"I found another gang preparing to sleep that night where they had slept for two other nights—out in the open under a lean-to. And I found everybody just about having the time of their young lives.

"The reason why was not hard to find. They were dressed for this kind of weather—a wise man saw to that. And they were kept cheerfully occupied. The same wise man saw to that. Dress a boy warmly and turn his hands to something that he likes to do, and he'll laugh at all the zero weather in the world.

"A few years ago had any man suggested that boys should go into the mountains and camp during the winter he would have been led away and put into a cell. But times have changed. We know more now about the virtues of outdoor life and we are building a sturdier group of boys."

THOUSANDS JOIN BOY SCOUTS.

Thousands of applications for associate membership in the national council continue to pour into the office of the Boy Scouts of America, 200 Fifth Avenue, New York, since boy scout week came to a close.

Checks ranging from \$1 to others running into several figures continue to pile up the results of the nationwide drive, which has already enlisted 1,000,000 men and women.

The new financial auxiliary thus created brings the total membership of the Boy Scouts of America up to a million and a half, which includes approximately 400,000 active scouts and 100,000 leaders.

Notwithstanding the tremendous size of this organization, it is conducted with a professional force of but 300 paid workers, mostly scout executive hired by the business men of the larger cities. The rest are volunteers, and according to James E. West, the chief scout executive, "they give from three to thirty hours a week to scouting, finding in the joy of the work alone more than sufficient compensation."

SCOUTING CURES LAWBREAKING.

"The constant reports of young men from sixteen to eighteen breaking the laws in various parts of the country seem to 'tell the story,' and show that there must be an intensive campaign carried on to teach our young folks legality, patriotism and respect for the laws of their country," says Whitman E. Smith, who has recently taken up the work in Portland, Me., of a boy scout executive.

"From my experience in the work for the last four years, it seems to me that the community never had a greater need for the scout program for boys than it has today.

"I find in communities where no particular attempt has been made to give publicity to the work that people are awake to the possibilities of the scout program and believe that the future of the movement is greater than it has been since its inception."

Mr. Smith is the first scout executive to be employed in the state of Maine.

SCOUTS DETER "HICK WALKERS."

"Protect the 'jay-walkers' despite themselves," is the slogan adopted by the boy scouts of Philadelphia, who have been working in conjunction with the Rotary club in the "Cross at Crossings" campaign.

When the scouts covered the business part of the city in mass form several irate shoppers protested when advised for safety's sake to cross at the crossing. Despite the protests of the "jays" and "hick-walkers," Scout Executive Goodman said the scouts were determined to help that element.

WOMEN GIVEN 1 TO 14 YEARS FOR PERJURY

Motion for New Trial Denied Mrs. Woodcock by Judge Ward

SAN FRANCISCO—Denying a motion for a new trial for Mrs. Alice Harris Woodcock, convicted of perjury, Judge Louis Ward sentenced Mrs. Woodcock to serve an indeterminate sentence of from one to four years in San Quentin.

The murder charge pending against Mrs. Woodcock was dismissed by order of the Court on motion by Assistant District Attorney I. M. Golden, who declared that in the face of the perjury conviction and the suffering already undergone by Mrs. Woodcock, the District Attorney's office felt that the ends of justice had been served and did not desire to push prosecution further.

A motion by Senator William Kehoe to admit Mrs. Woodcock to probation was also denied.

"I intend to do everything I can for Mrs. Alice Woodcock," said Judge Ward, "but this is not the time."

Golden also declared that he had assured Mrs. Woodcock's attorneys that he was satisfied that the conviction was sufficient to uphold the ends of justice, and that he would gladly assist in an effort to lighten Mrs. Woodcock's sentence.

A three-day stay of execution was granted to give time for formal preparations for the beginning of the sentence.

Mrs. Woodcock received her sentence composedly, with only slight traces of the emotion she showed during the trial. She was in court accompanied by her mother and sister.

With the sentencing of Alice Woodcock the famous case has now virtually passed into legal history unless the search for Edgar Woodcock, fugitive from justice, should result in his discovery. Following persistent rumors that Woodcock had fled to Canada, Chief of Police D. A. White and Captain of Detectives Duncan Matheson have issued for distribution among American and Canadian authorities thousands of circulars containing a picture and description of Woodcock.

Warren G. Cooper, associate of Woodcock on the night that Kelly was shot, and principal witness in both trials, is still facing a murder charge. No intimation has been given as to what will be done in his case.

JURY DECIDES MAN HAS RIGHT TO KEEP LIQUOR IN GARAGE.

SAN FRANCISCO—Chester Damico, possessor of five barrels and fifteen demijohns of wine and one barrel of beer, can continue to keep the liquor stored in his garage at the rear of his hotel at 3355 Mission street, according to a United States District Court jury decision.

Chauncey Tramutolo, attorney for Damico, argued that Damico had a lawful right to store the liquor in the garage. Assistant United States Attorney Edward M. Leonard said Damico had violated the law.

Tramutolo then said he had liquor stored in his own garage and defied the United States Attorney's office to seize it.

Leonard jumped to his feet and said: "Well, if that is the case, we shall see that a prohibition enforcement officer gets the liquor."

Judge Frank S. Dietrich, in instructing the jury, said that according to his interpretation Damico had violated the law.

The jury disregarded the instructions.

JERSEY COW MAKES RECORD PRODUCTION.

NEW YORK—A new champion Jersey cow will be proclaimed at the annual meeting of the American Jersey Cattle Club here on June 2, has been announced. The new champion fat-producer is "Plain Mary," whose record for one year of 1,040 pounds of fat breaks the record of "Vive La France."

A new record has also been made in the yearling class by "Lulu Alpha of Ashburn," producer of \$800 pounds of fat in a test begun at the age of 22 months.

NEGRO ESCAPES FROM PRESTON STATE SCHOOL.

IONE—J. Greene, negro, who escaped from the Preston School of Industry, is said to be hiding near Jackson valley.

"CHEER UP THE WORST IS YET TO COME."

CHICAGO—Sugar reached the highest price on record in Chicago April 29, according to commission men. A 1,000-pound lot sold for 31 cents a pound wholesale. Buyers attempted to buy more by offering 32 cents, but there was none for sale.

Painstaking Art

"How could you think of offering that waiter a mere 25 cent tip?"

W. A. SLOANE GOES TO THE SUPREME BENCH

San Diego Jurist Raised to Vacancy Created by Death of Justice Melvin

SACRAMENTO—Governor William D. Stephens announced April 29 he had appointed W. A. Sloane of San Diego, now serving as an Associate Justice of Appellate Court No. 2, to the vacancy on the State Supreme bench created by the death of Assistant Justice Henry Melvin of Oakland.

To succeed Sloane on the Appellate bench, the Governor said he would appoint Superior Judge Dana R. Weller of Los Angeles.

Albert Lee Stephens, formerly City Attorney of Los Angeles, will be appointed to the Superior bench in succession to Judge Weller, the Governor announced. Stephens is not related to Governor Stephens.

Justice Sloane served on the Superior bench of San Diego county and was created an Appellate Justice by appointment of Governor Stephens on January, 1912. Judge Weller was appointed Superior Judge of Los Angeles county by the Governor in 1917, and in 1918 was elected to the full term.

The appointment of Justice Sloane to the Supreme bench holds until the next general State election.

BONUS OPPOSED BY U.S. CHAMBER OF COMMERCE

Californian Elected Vice-President for Western States by Body

ATLANTIC CITY, N. J.—The Chamber of Commerce of the United States at the closing session of its eighth annual convention here, April 29, went on record as favoring a "constructive Americanism" urged that a treaty of peace without further delay" and adopted a resolution opposing a cash bonus for soldiers.

Announcement that a resolution had been prepared caused Franklin D. Oiler, commander of the American Legion, to request a hearing before the committee. He conferred with the committee, after which it was reported the original resolution had been modified.

A resolution on constructive Americanism said: "It is essential that our Government should scrupulously refrain from entering any of the fields of transportation, communication, industry and commerce or any phase of business when it can be successfully undertaken and conducted by private enterprise."

Matthew Woll, vice president of the American Federation of Labor, who addressed the convention, was interrupted by hisses and cries of "time" when he attacked the Kansas industrial law as an "amusing experiment."

Joseph H. Defrees of Chicago was elected president, succeeding Homer L. Ferguson of Newport News, Va. Maynard McFie, Los Angeles, was elected vice president for Western States.

"BLUEBEARD" AND "BLACK BEARD" OF THE VIRGIN ISLANDS.

The lure of hidden treasure has always had a fascination for the average human being, and the U. S. Marines on duty in the Virgin Islands, latest U. S. Possession, are no exceptions.

"The two places of real interest in the Virgin Islands," says Sergeant W. McClaskey of the Marine Corps Recruiting Station, 320 Market street, San Francisco, "are the famous castles of 'Bluebeard' and 'Blackbeard,' two old buccaners. These castles are located on the sides of two peaks near Charlotte-Amalie. Our Marines often busy themselves inspecting old battered and rusted chests buried in the ruins and surrounding jungles. Up to date no finds have been reported, but the Marines have hopes.

"Bluebeard" Edward Teach was a reality, as was his brother. These pirates sailed the seas and brought their spoils and wives from the Spanish Main to the castles, through the ruins of which the U. S. Marines are now tramping. To this day the islands fear the 'spooks' of the once feared 'devils' and will not go near the 'haunted' castles after dark.

"As many of his so-called wives had done at his own hand, 'Bluebeard' went to his death in 1718 at the end of a rope slung to a yard-arm."

The Usual Comment

In an infant school the teacher chose the miracle of the water being turned into wine as the subject of the usual Bible lesson.

In telling the story she occasionally asked a few questions. One of them was:

"When the new wine was brought to the governor of the feast, what did he say?"

A little girl, remembering what she heard, probably on some festive occasion, called out:

"Here's luck!"—Cleveland Plain Dealer.

Condensed California News

LINDSAY—James Coady was badly injured and his car completely wrecked when it collided with a freight train at the Hermosa street crossing early Tuesday morning, April 27. Clyde Sears, a boy, who was driving, escaped without injury, but Coady has a badly crushed arm and several broken ribs.

LINDSAY—The house occupied by S. E. Vian on the Camilla ranch was completely destroyed by fire on Wednesday evening, April 28. COALINGA—The Coalinga band musicians met April 28 at the band room on E street, and formed a permanent organization to be known as the Coalinga Union Band. James Caine was elected president, Ed Petty, vice president and manager; H. M. Mason, secretary-treasurer; Will Jones, C. Pascoe and F. J. McCollum, trustees, and Marian Ellis, librarian.

REEDLEY—G. H. LaJoie, one of Reedley's prominent and prosperous fruit growers, and Mrs. Ida M. Hare, mother of Mrs. M. A. Furlong, were united in marriage at Los Angeles last week. In the fall they will return to Reedley when they plan to erect a fine home on residence property on Eleventh street.

SANGER—The boys of Sanger Post No. 23, American Legion, will give a big overall dance on Saturday night, May 8, at the Guild hall. No one will be allowed in the hall with a white collar on and if you have no overalls wear your old clothes. The best music has been engaged for this affair and the boys are making preparations for a big time.

HANFORD—That the list of delinquent tax payers in the county this year is smaller than the average of several years past, is the statement of County Tax Collector M. B. Washburn. While there are many who failed to make their payments inside the limited time, which ended Monday, April 26, at 6 o'clock, the list was materially decreased during the last week.

TAFT—A number of Taft men have arranged to give a benefit minstrel performance in Taft on May 18 for J. B. Williams of Taft, who has been ill for the past several weeks. Some of the real old time end men in previous minstrel performances on the west side will be seen on the stage and a show really worth while will be put on. Arrangements for the costumes have been made and nothing will be overlooked to make the benefit how a success.

MERCED—John G. Hiff, head of the history department of the Stockton high school department of the Stockton high school, addressed a Hoover rally April 29 in this city. He was accompanied by the Stockton high school quartet, which has sung at a number of meetings this spring. When Justice W. H. Rice united the pair after the license was obtained, they stated that Mr. Wagner had been married twice, and Mrs. Wagner had been married three times, twice to Mr. Wagner.

OAKDALE—Strawberry growers in the Oakdale section are alarmed over the sugar situation and unless something is done to remedy conditions a big part of the crop here may be allowed to go by the board. The last few days of hot weather has ripened the berries in quantities and shipments are now beginning. The growers declare that with the high cost of harvesting now, that they must have at least \$2.25 for a 16-quart crate, and with sugar at 25 cents per pound, this would mean an average cost of a quart of canned strawberries to be 85 cents to \$1, not counting the cost of fuel or labor of canning. Some of the strawberry men say that when the price of berries falls below the cost of productions they will stop picking and fruit men who have not contracted their fruit are also becoming alarmed over the sugar situation.

MADERA—The first of the 1920 crop of grapes to be sold in Madera was purchased by S. Canatella, local representative of the Bonner packing house of Fresno. Local grape growers have been offered 15 cents for their coming crop of raisins, but are not particularly anxious to sign up.

Neither the pilot nor the passenger was injured, and both of them boarded a train that was about to leave for Fresno and continued their journey in that way. The airplane was only injured in the wings and can be easily repaired.

MERCED—The "Own Your Own Home" week, planned by the Housing Committee of the Chamber of Commerce, has been postponed from the first week in May to the second week, owing to unavoidable delays in procuring window decorations which will accompany the campaign. PERPETUAL DISSATISFACTION.

The man who has to stay at home finds that not to his liking. The "drummer," always on the road, is sick and tired of hiking.

It isn't that the home is bad, The road's no such a lemon; It's just that what we've always had Is what we're aye condemnin'.

'Twould sure be finer, would it not, And give the world a rest, If each declared that what he'd got Was just the very best?

Couldn't Stand Everything.

A man had just walked under a ladder.

From rugged Maine to Golden Gate, this photo-reel stuff is unfurled. And every flit-show in the land has "the best movies in the world."

Oil Stoves.

One time in a careless moment Luther Burbank, the well-known double-crocker, conceived the unique and mischievous idea of crossing the glow-worm and the skunk.

The result was an oil stove.

The hybrid inherited its heat from the glow-worm and its aroma from the skunk.

When one retires in a fireless, radiatorless, registerless room away from home, they sometimes put one of these kerosene, air-cooled consumers in with him for company.

Any time he wakes in the night he knows the stove is there, because he can smell it.

He is glad it doesn't make any heat, for smells smell worse in a warm room than in a cold room.

They say there are oil stoves that warm one. But we have not seen all.

Something New Under the Sun at Last!
A Triumph of American Inventiveness

Master minds invented the telephone, the electric light, wireless telegraphy, etc., but now comes the **Crowning Achievement of Modern Times**

the absolute annihilator of all previous scientific research, **THE SEX-DETECTOR**

Priceless as an Amusement Device **The Ouija Board Will be Relieved to Oblivion**

The Sex-Detector instantly determines the sex of humans or animals, whether dead or alive. A scientific discovery, the result of twelve years of patient research and experiment, now made public for the first time.

Doctors are dumbfounded and students of astrology are bewildered at the unerring accuracy of this miraculous device. A wire can be passed through a keyhole into another room—the sex detector will instantly indicate whether a man or woman is holding the other end.

It is unnecessary to describe in detail the many uses to which the Sex-Detector can be put, but the discerning will readily realize its far-reaching possibilities.

Each Sex-Detector is absolutely guaranteed to do everything that its inventor claims for it. The directions, which can instantly be followed by a child, must be observed.

We have letters from men of authority who have made tests with the Sex-Detector, on file in our offices and are open to the public to be read.

Poultry men have found the Sex-Detector to be invaluable in the testing of eggs. A Sex-Detector should be in every home and will last forever.

Sex-Detector Mailed Prepaid upon Receipt of \$2.00. Special prices on large quantities. Address—

IN TURQUOISE TOWN.
In Turquoise Town the trees are white.

The houses and the hedges, too! But shadows and the sky are blue And every bird is of that hue, Except the snowy owls at night.

Blue hyacinths and scyllas blow All summer through the sparkling snow. The children wear blue eiderdown For leggings and for little coats. With bands of swan around their throats.

The leading light of Turquoise Town, King Sirius, wears a sapphire crown. He bids the sun go down at noon, For fear the world should be too bright.

And orders lovely Lady Moon To light her silver lamp instead; She gives each child a blue balloon To play with when it goes to bed. They laugh out when the sun goes down

In Turquoise Town—in Turquoise Town! —Dorothy Leonard, in New York Times.

GOING CALLING.
When th' sun is warm in th' afternoon, Dolly an' doggie an' me— We likes to crawl through th' hedge, an' call

At somebody's house for tea. I snuggle dolly up to my side, An' I hold to doggie's chain. 'Cause if there's a sound, there's somebody bound

To make us stop an' explain! 'Cause folks—when they're grown-ups—keeps us home

When we want most hard to play. An' they scold at us, an' they make a fuss, 'Cause they say we run away;

So we tiptoe, quiet, over th' lawn, Dolly an' doggie an' me— 'Cause we likes to crawl through th' hedge an' call

At somebody's house for tea! —Margaret E. Sangster, in Christian Herald.

On a Squirrel
Now that in gorgeous polychromes The trees hobnob, A workman in gray jumper roams, About his job.

From sunrise he maintains top speed Till darkness lowers, Nor ever thinks if he exceed Eight working hours.

So eager he to spot his spoils And promptly fob them, He fails to ponder as he toils The labor problem.

His sense of honor's somewhat blunt, He goes and dines, Nor ever bothers much to hunt "No trespass" signs.

'Tis true, a chestnut to him is Naught but a nut; That all abstruse philosophies He'd greet with "Chut."

But though he might not recognize His latin name, He gets—a quality to prize— There just the same.

—Maurice Morris in New York Sun.

To the French War Bride
Are things so very strange to you Who came across the seas a bride To learn odd ways and customs new And under far-off roof trees hide, Where all is hurry, jam and fret Within a city's bustling hive, I wonder if you want them yet— The placid cows you used to drive?

The shepherd doesn't blow his horn To call the lambskins far and near; No stanch old crier shouts each morn The news with drumbeats over here.

We send our laundry in a pack To some steam place—we don't where. I wonder if you'd have them back— The washing parties in the square.

The shriek of sirens tells our noon And not the chime of church's bells; Our folk clack not in wooden shoon Nor draw their water out of wells. We run to flats, hotels and such, We're strong on progress and advance; I wonder if you miss it much— The little, red-tiled home in France.

—Steuart M. Emery in The Home Sector.

Taken in the Other Sense
Miss Mugg—I think you are just beautiful, my dear.

Friends in Campbell will be sorry to hear of the continued ill health of Mr. F. R. Glover, who has been in a hospital and is under constant medical attention.

Noted H. W. Moffat, R. B. Newberry and R. J. Butler of Island Temple left today for Fresno to participate in a gigantic ceremonial when more than 100 novices will cross the "hot sands" and receive the "true light." Mr. Morton's machine will carry a Campbell Chautauqua banner in the parade Saturday.

Sunday evening, May 9, the Epworth Leaguers will hold their Anniversary Day meeting. It will be conducted very much as the regular devotional meetings of the chapter, but will last an hour and a half, from 7 to 8:30, taking the place of the church service and will be held in the church room. The Leaguers are very anxious to have everyone that can, attend, and see what they do.

The Home and School Club will meet Tuesday, May 11, at the usual time and place. A full attendance is urged as this is the last meeting before the annual one.

This Friday evening the Leaguers will hold their annual business meeting, and for an added attraction have decided to make it a picnic and go to Alum Rock for supper. Election of officers and annual reports will be the principal business.

May 14 there will be a fine movie entertainment, of six reels, at Campbell Grammar Auditorium, with music by the band, and W. C. Bohnett and Mrs. Emily Gard will play during the reels. The proceeds will be shared by the band and the Home and School Club.

Reasons For School Consolidation

The rural schools are about to receive from educators the attention that they deserve. The modern industrial city, with its urgent problems, has commanded both the public and professional interest, but the rural school has been neglected. The rural schools are not so efficient as they once were.

It must be apparent to those who have taken the trouble to look closely at the country school that it enjoys no such favor as the ward school of the city. In neither human nor material equipment does the rural approximate the resources of a city school. As a rule the inexperienced teachers are in the country; the best are in the city. The country teacher is isolated culturally and professionally, while libraries, museums, concerts, theatres, reading circles, lectures and professional meetings are accessible to the city teacher.

It must also be admitted that the rural school has been deprived of some opportunities for efficiency which it once possessed. Before the growth of cities, the rural school had almost as good a chance to obtain the best available teachers as the city school. The opportunity has greatly decreased under modern conditions. The country cannot attract the best trained teachers, and it rapidly loses the more capable and brilliant teachers. Why? Because the city offers better pay, tenure, pensions, and a graded school attracts any teacher. The country school lacks interest and ideas; it suffers from isolation and from lack of that enthusiasm which comes only from numbers; and it realizes but a small percentage of its possible efficiency.

Campbell Should Keep Community Nurse

A misunderstanding of the notice published about the community nurse has arisen. The Metropolitan Co. has said that unless this district has a community nurse, its policy holders cannot, hereafter, have the services of their nurse this far out of San Jose, and then only on the days she regularly comes to Campbell. An impression has arisen that only Metropolitan people can call the community nurse, which is altogether wrong. Mrs. Beal has met with a hearty response in the country, but Mrs. Osborn finds the townspeople much less willing to subscribe, to our discredit. Remember, "An ounce of prevention," etc., and "Charity begins at home."

High School Principal Elected

At a meeting of the High School board Saturday evening, Mr. D. H. Cramer was elected to the principalship of the C. U. H. S. to succeed Mr. Snow, and Mr. C. E. Yorke was retained for another year. No action in regard to the lady members of the faculty was taken.

The patrons of the school, students, and residents of the districts will be pleased with the well-deserved promotion of Mr. Cramer, who, during eight years of faithful service in the interests of the school and for the welfare of the community, has won the general good wishes. In the resignation of Mr. Snow, we are fortunate in having a man so well fitted for the place.

How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?
